

# Upper

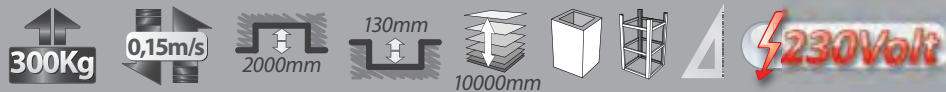

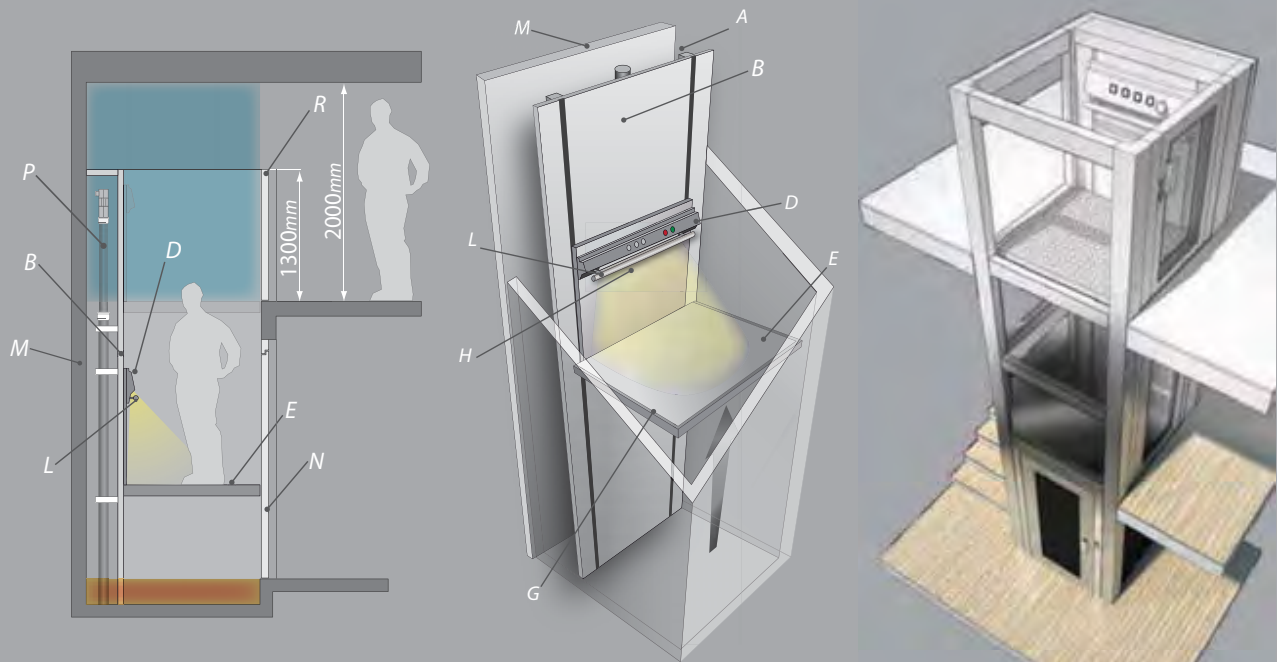

Piattaforma elevatrice rispondente ai requisiti della 2006/42/CE ed idonea per l'abbattimento delle barriere architettoniche. L'ingombro in testata di H1300mm permette installazioni anche dove lo spazio è ridotto.

Open platform cabin in compliance with the 2006/42/EC Directive for the removal of architectural barriers. The reduced space needed in headroom H 1300 mm allows its installation even where the available space is minimum.

Plataforma elevadora que cumple con los requisitos de la ley 2006/42/CE para el abatimiento de las barreras arquitectónicas. El espacio ocupado en la huida de solo 1300 mm permite instalaciones incluso cuando el espacio es limitado.

Plate-forme élévatrice selon la Directive 2006/42/CE pour l'élimination des barrières architecturales. L'espace de HsP de 1300 mm permet une installation meme si l'espace est limité.

Installationen, die oben im Schacht nur sehr geringen Platz zur Verfügung haben, steht Dank **Upper** kein Hindernis mehr im Weg gemäss der Maschinenrichtlinie 2006/42/CE. Die Tatsache, dass auf der obersten Etage eine 130 cm hohe Gittertür angebracht werden kann, macht die bis heute für undenkbar gehaltene Installation möglich.

# Upper

**Upper** è sviluppato in funzione degli spazi disponibili, le parti meccaniche sono nascoste da un carter che garantisce ottimi risultati estetici, inoltre ogni cliente può personalizzare l'impianto scegliendo materiali e colori adatti alle proprie necessità.

**Upper** has been developed according to the availability of spaces, the mechanics (guides, piston, etc.) located at one side of the platform, are hidden by a protective case covering the shaft that guarantees the best aesthetic results. Furthermore, each customer can personalized the platform choosing among a wide variety of materials and colours that meets every request.

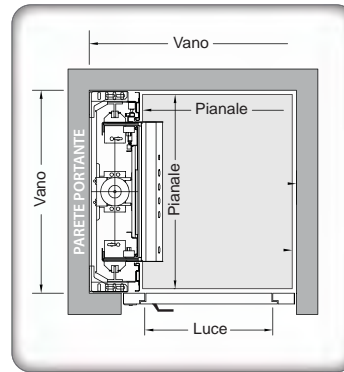

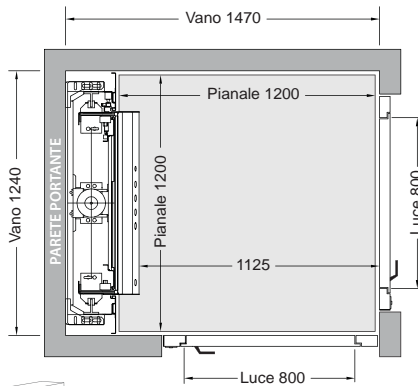

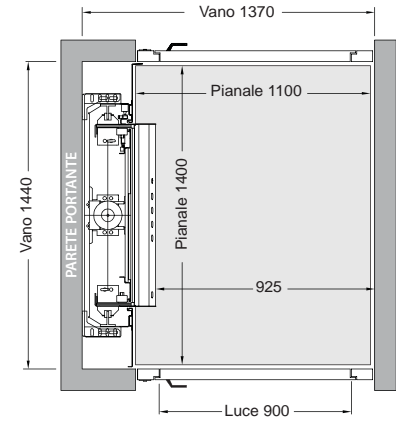

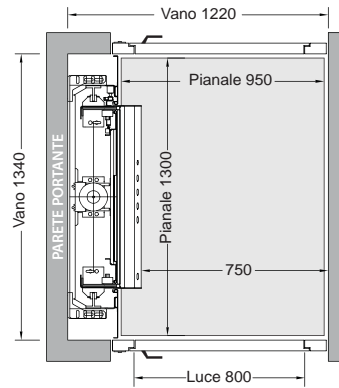

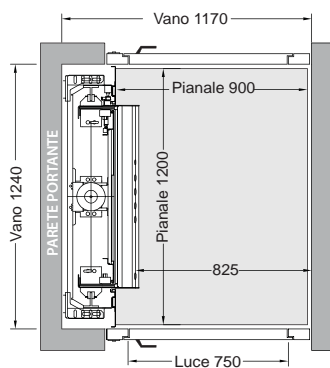

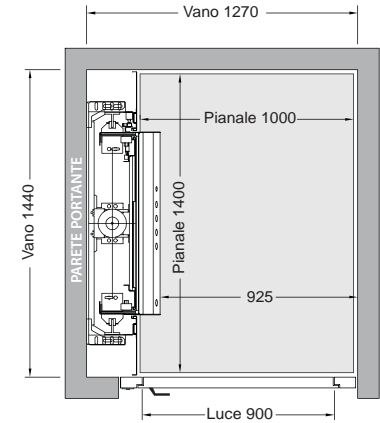

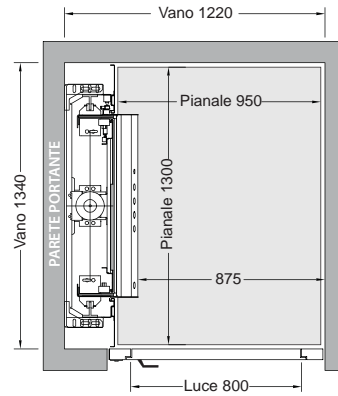

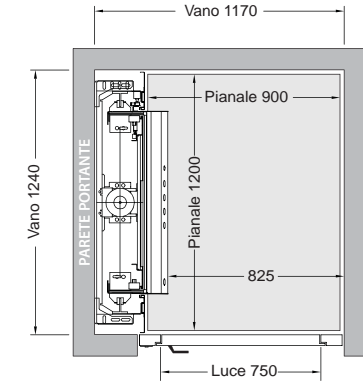

**Upper** se desarrolla según el espacio disponible, las partes mecánicas están ocultas detrás de un carter que garantiza resultados estéticos optimales, además cada cliente puede personalizar el equipo eligiendo materiales y colores que se adapten a sus necesidades.

**Upper** est développé sur la base de l'espace disponible, les pièces mécaniques sont masquées par un carter qui assure d'excellents résultats esthétiques, en outre, chaque client peut personnaliser le système en choisissant des matériaux et de couleurs pour répondre à leurs besoins.

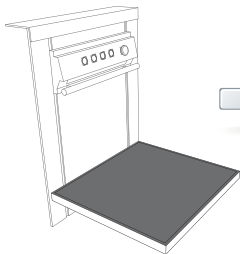

**Upper** ist auf der Grundlage des verfügbaren Platzes entwickelt, die mechanische Teile sind durch ein Gehäuse, welcher ausgezeichnete ästhetische Ergebnisse garantiert, versteckt, hinzu kann jeder Kunde die Installation durch Auswahl von Materialien und Farben personalisieren.
